This means that a foreigner cannot apply for such a permit earlier.

Special solutions for foreigners

[- Extension of stay under visa-free regime, on the basis of visas and residence permits issued by other Schengen States](#)

The provisions of the Act of March 2, 2020 on special arrangements for preventing, counteracting and combating COVID -19, other infectious diseases and crisis situations caused by them, introduced a number of special legal solutions aimed, inter alia, to sort out problems related to, among others with the legality of foreigners' residence on the territory of the Republic of Poland after the declaration of the state of epidemic emergency. These solutions include:

extension by law of the periods of validity of temporary residence permits expiring during the period of state of epidemic emergency or state of epidemic - until the end of the 30th day following the date of cancellation of one of the above-mentioned states, whichever was in force last (art. 15zd section 3 of the Special Act); [holders of national visas retain the right to cross the state border and stay in the territory of the Republic of Poland during the period when the state of emergency or state of epidemic is in force, as well as for a period of 30 days after the last state is recalled;](#)

extension by law of periods of stay and periods of validity of national visas in cases where the last day of the period of stay on the basis of such visas would fall within the period of state of epidemic emergency or state of epidemic - until the end of the 30th day following the date of cancellation of one of the above-mentioned states, whichever was in force last (Article 15zd section 1 of the Special Act);

recognition as legal by law the residence of foreigners on the territory of the Republic of Poland in cases where, on the day from which the state of epidemic emergency was announced in connection with SARS-CoV-2 virus infections was first declared, they were staying on that territory on the basis of short-term residence titles , i.e.:

- from the day following the last day of legal residence resulting of these titles

until the expiry of the 30th day following the date of cancellation of the state of epidemic emergency or state of epidemic, whichever was in force last (Article 15z1 section 1 of the Special Act).

The above provision (Article 15z1) has effect only with the respect to the abovementioned documents the holders of which were on the territory of the Republic of Poland on the day on which the first declaration of the state of epidemic emergency was announced connected with SARS-CoV-2 virus infection and is not tantamount to the prolongation of any of the above-mentioned visas or documents or extension of authorised stay under visa-free regime.

The use of this legal basis for stay in the territory is in no way conditional on the submission of any applications, issuing permits or documents, and no administrative decision is issued for this effect to occur. Residence of EU/EEA/Switzerland citizens and the coronavirus epidemic

EU/EEA/Switzerland nationals and their family members who are not EU/EEA/Switzerland nationals may reside in Poland for up to 3 months without fulfilling any residence conditions other than holding a valid travel document. An EU/EEA/Switzerland citizen may hold another valid document proving his identity and nationality. Their family members who are not EU/EEA/Switzerland nationals should have a visa to enter Poland unless they are exempt from this requirement.

Residence of more than 3 months

A citizen of the EU/EEA/Switzerland is entitled to stay for more than 3 months if he fulfils one of the following conditions:

1. is an employee or self-employed person on the territory of Poland;
2. has sufficient financial resources to support itself and its family members on the territory of Poland so as not to be a burden on social assistance and adequate health insurance;
3. studies or receives vocational training in Poland and has sufficient financial resources to support himself and his family members on the territory of Poland so as not to be a burden on social assistance and has adequate health insurance;
4. is the spouse of a Polish citizen.

If the stay in Poland lasts longer than 3 months, the EU/EEA/Switzerland citizen and his/her family member must register their stay. However, a family member who is not an EU/EEA/Switzerland citizen is obliged to obtain a residence card for the EU citizen's family member. These formalities can be carried out in the voivodship office competent for the

[place of residence of a given person. The application shall be submitted in person, not later than on the day following the expiry of 3 months from the date of entry into the territory of Poland.](#)

[The provincial offices have suspended direct customer service. Therefore, at present it is not possible to register the residence, obtain a certificate of registration of the residence of an EU citizen, issue a residence card of an EU citizen's family member, as well as documents confirming the right of permanent residence on the territory of Poland.](#)

[It should be pointed, however, that the residence rights of EU/EEA/Switzerland citizens and their family members exercising their freedom of movement on the territory of Poland are granted by law if the conditions of the right of residence are met. They do not depend on registration of residence or obtaining a residence permit.](#)

[Extension by law of the periods of validity of issued documents](#)

[The current legislation provides for the legal extension of the following documents issued to EU/EEA/Switzerland nationals and their family members who reside with or join them:](#)

[documents confirming the right of permanent residence,
residence cards of an EU citizen's family member,
permanent residence cards of an EU citizen's family member.](#)

[In the same way as the other anti-crisis solutions concerning the legal extension of validity periods of documents, if the end of the validity period of one of the above mentioned documents is not valid, the validity period of the documents will be extended by law. documents will fall within the period of an emergency or epidemic condition, it will be extended until the 30th day following the date of cancellation of that condition \(emergency or epidemic\), which will be last in force. At the same time, this extension will not create a basis for the exchange or issuance of a new document.](#)

[Certificates of registration of residence of EU citizens as documents of unlimited duration are not covered by this regulation.](#)
